**Construction, Facility, and Security Management**

# What We Do

---

CONSTRUCTION  
MANAGEMENT

SECURITY  
MANAGEMENT

FACILITY  
MANAGEMENT

U.S. Embassy Valletta

# Construction Management

---

The Construction Management Office provides management oversight and on-site construction supervision for the Bureau of Overseas Buildings Operations (OBO) worldwide construction program.

118 Completed Projects Since 1999

# Security Management

---

The Security Management Division ensures all appropriate physical, technical and procedural security measures are incorporated into every OBO project.

They manage construction security programs that prevent physical and technical penetration and safeguard against mob violence and terrorist attacks.

Vehicle Sally-Port

# Facility Management

---

The Office of Facility Management provides global support in operating, managing and maintaining facilities overseas.

Our technical experts provide professional specialties serving to ensure safe, secure, functional, sustainable and reliable Embassies and Consulates.
